Index of Subjects

Volume 113, 1983

Acetaminophen
hepatotoxicity of, electron microscopy of, 321
Alpha protein, nephrocalcinosis from
parathyroidectomy affecting, 107
phosphate affecting, 95
Alzheimer's disease
neurofibrillary tangles in, 373
Angiotensin
lung injury from, 331
Animal models of human disease
congenital polycystic kidney disease, 112
Menetrier's disease, 410
mucopolysaccharidosis, 266
Aorta
clonal characteristics of intima, 33
endothelium affecting glycosaminoglycan accumulation in, 156
mononuclear cell adhesion and emigration in hyperlipidemia, 341
Aortic valves
bioprosthetic calcification in, 143
Atherosclerosis
and immune complex disease, 222
pathogenesis of, 341

Breast cancer
cell of origin of, 50

Calcification
of bioprosthetic aortic valves, 143
Cancer cells
regulation by embryo, 117
Cholestasis
glomerular IgA immune complexes in, 19
Choline deficiency
and liver necrosis, 309

Diabetes
in pregnancy, lung epithelium in, 389
Diet. *See* Nutrition
Diethylcarbamazine
and platelet function, 1

Electron microscopy
of acetaminophen hepatotoxicity, 321
of pyelonephritis, 300
Embryo
regulating cancer cells, 117
Endothelium
and glycosaminoglycan accumulation in aorta, 156
Endotoxin
antiinflammatory effects of, 291
Estrogen
and pituitary hyperplasia and neoplasia, 198

Glomerulonephritis. *See* Kidney
Glycosaminoglycan
accumulation in aorta, endothelium affecting, 156

Heart
bioprosthetic valve calcification, 143
Hemoglobinopathies
thalassemic, 396
Heparin
and aggregation of PMNs, 67
Hypothyroidism
kidney structure in, 41

Immune complexes
and atherosclerosis and glomerulonephritis, 222
glomerular IgA deposits in cholestasis, 19
Immunodeficiency syndrome, acquired
in monkey colony, 382
Immunoglobulin A
glomerular deposits in cholestasis, 19
mesangial deposits of, 359
Immunohistochemistry
of estrogen-induced pituitary tumors, 198
of lymphomas, 207
of mesangial IgA deposits, 359

Keratin
in lung tumors, 27
Kidney
animal model of congenital polycystic kidney disease, 112
anti-GBM nephritis in sheep, 125
dietary nephrocalcinosis
parathyroidectomy affecting, 107
phosphate affecting, 95
fibrillary deposits and nephritis, 279
glomerular IgA immune complexes in cholestasis, 19
immune complex disease and glomerulonephritis development, 222
mesangial IgA deposits, 359
nephroblastoma histology, 8
structure in hypothyroidism, 41
ultrastructure in experimental pyelonephritis, 300

Lactoferrin
interaction with heparin, 67
Lead
and liver cell proliferation, 315
Lectins
binding to lung alveolar epithelial cells in diabetic pregnancy, 389
Leukemia
murine models of, 237
Leukocytes
mononuclear aortic adhesion and emigration in hyperlipidemia, 341
polymorphonuclear
adherence affected by phospholipid mediator, 85
heparin affecting, 67
inhibition of responses to C5-derived peptides, 291
Liver
acetaminophen hepatotoxicity, 321
cell proliferation after lead treatments, 315

mesangial IgA deposits, 359
nephroblastoma histology, 8
structure in hypothyroidism, 41
ultrastructure in experimental pyelonephritis, 300

Lactoferrin
interaction with heparin, 67
Lead
and liver cell proliferation, 315
Lectins
binding to lung alveolar epithelial cells in diabetic pregnancy, 389
Leukemia
murine models of, 237
Leukocytes
mononuclear aortic adhesion and emigration in hyperlipidemia, 341
polymorphonuclear
adherence affected by phospholipid mediator, 85
heparin affecting, 67
inhibition of responses to C5-derived peptides, 291
Liver
acetaminophen hepatotoxicity, 321
cell proliferation after lead treatments, 315

necrosis in choline and methionine deficiency, 309
Lungs
contractility affected by platelet-activating factor, 75
epithelial lesions from angiotensin, 331
keratin in tumors of, 27
lectin binding to alveolar epithelial cells in diabetic pregnancy, 389
Lymphoma
B-cell
T-cell antigen in, 165
T-cell subsets in, 172
centrocytic, 181
immunohistochemical phenotypes of, 107
murine models of, 237

Menetrier's disease
animal model of, 410
Methionine deficiency
and liver necrosis, 309
Mucopolysaccharidosis
suramin-induced, 266

Neoplasia
cancer cell control by embryo, 117
cell of origin of breast cancer, 51
cloned UV-regressor phenotypes, 269
keratin in lung tumors, 27
nephroblastoma histology, 8
pancreatic carcinogenesis in hamster model, 365
pancreatic polypeptide-secreting tumors, 134
pituitary, estrogen-induced, 198
Nephrocalcinosis, dietary
parathyroidectomy affecting, 107
phosphate affecting, 95
Neurofibrillary tangles
in Alzheimer's disease, 373
Neutrophils
phospholipase A_2 secretion from, 90
Nutrition
dietary nephrocalcinosis
parathyroidectomy affecting, 107
phosphate affecting, 95
liver necrosis in choline and methionine deficiency, 309

Ostertagiosis
in cattle, 410

Pancreas
carcinogenesis in hamster model, 365
polypeptide-secreting tumors of, 134
Papillomavirus
transformation of, 414
Parathyroidectomy
and dietary nephrocalcinosis, 107
Phosphate
and dietary nephrocalcinosis, 95
Phospholipase A_2
secretion from neutrophils, 90
Pituitary gland
estrogen-induced hyperplasia and neoplasia, 198
Platelets
diethylcarbamazine affecting, 1
spasmogenic properties of activating factor, 75
Pregnancy
diabetes in, lung epithelium in, 389
Pyelonephritis
experimental, ultrastructure in, 300

Rous-Whipple Award Lecture, 117

Sumarin
inducing mucopolysaccharidosis, 266

Thalassemias
and hemoglobinopathies, 396
Thyroid gland
kidney structure in hypothyroidism, 41
Tumors. *See* Neoplasia

Ultraviolet
and tumors with regressor phenotype, 269

Vasculature
atherosclerosis
in immune complex disease, 222
pathogenesis of, 341
clonal characteristics of aortic intima, 33
endothelium affecting glycosaminoglycan accumulation in aorta, 156
Vimentin
in neurofibrillary tangles, 373
Viruses
transforming papillomaviruses, 414

Warner-Lambert Parke-Davis Award Lecture, 414
